# Bio

After teaching English for 20 years and writing stories on the side, I decided to **re-enchant my life** by becoming a full-time writer and speaker. In the summer of 2019, I launched **Nathalie Bagadey Productions**, turning my dream into a reality.

As a highly qualified teacher, I am experienced at making my audiences **learn and grow**.

As a fantasy writer, I know how to add **magic** to their life.

My strengths are my enthusiasm, refreshing attitude and humour.

I have spoken in front of various audiences, from book fairs to Speakers conventions and I love surprising the public with my slides, my stories, or by adding some special effects to my talks.

I am really looking forward to working with you. Let me teach you how to fly!

# Speaking topics

## REENCHANTING YOUR LIFE AND WORKPLACE

In my **signature-talk**, I show you how to wake up every morning with a smile on your face. Even - and especially - on working days.  
A life-changing presentation.

## BECOME THE SUPER HERO YOUR COMPANY NEEDS

Employees do not leave a company. They leave a manager. In this talk I show you how you can prevent this from happening, transforming your life and many others in the process.

## DARE BECOME AN INDIE

After being traditionally self-published, I chose the indie path... and never looked back.  
Now I'm showing you how even businesses can benefit from this **easy and satisfying** way to publish.  
For independant personalities and businesses.

# What they are saying...

"I have seen Nathalie at the Elevate Convention in Paris. What I liked is that she uses a pencil as a metaphor. Seems simple, but with a strong story, it is constructive. Especially when there are many speakers. I always promote that speakers do *something different*. She did it, that's why I liked it."

~ Tom Lightning, Global Keynote Speaker.

"To say that *she enchanted the audience* would be a euphemism."

~ Pascal Haumont, Speaker and Comedian

"Nathalie *unveils the fantastic, heroic and shining* sides of our personality."

~ Sébastien Perret, Speaker and Psychologist

"*Human, moving and authentic*. Her message is a mix of gentleness, dreams and innovations."

~ Sarah Galvan, Photographer and Therapist.
